

AO CMF Research & Development Commission Member

Job description

AO CMF searches: *A highly motivated individual with a track record in carrying out and managing (pre-)clinical research at an international level and strong background in preclinical research. The successful applicant would be part of the AO CMF Research & Development Commission and would be participating to develop a future-oriented research strategy along the AO Foundation's overall research goals. The applicant needs to be able to work in a multi-cultural environment and is expected to contribute to AO CMF Research and to set new standards and to foster the position of AO CMF as an international, academic leader in craniomaxillofacial research.*

Position Member AO CMF Research & Development Commission

Territory International

Reporting to Chairperson AO CMF R&D Commission

Term 3 years

Start date July 2023

End date June 2026

Requirements

- Active OMS, ENT, oral or plastic surgeon with an excellent clinical background or active researcher with strong background in CMF preclinical research
- Strong reputation - well published (>15 publications) in high impact journals
- Experience in multi-center clinical studies
- Experience in strategy development and strategy implementation
- Highly motivated to contribute to the process of building and managing research programs
- Be able and willing to work in an ecumenical, constructive and inclusive way with surgeons of different surgical backgrounds, including but not limited to oral and maxillofacial surgeons, plastic surgeons, otolaryngologists, head and neck surgeons, ophthalmic and oculoplastic surgeons, and neurosurgeons
- Excellent communicator and ability to work in multi-cultural environments
- Prepared to commit at least 1 day per month for AO CMF R&D tasks
- Good command of English

- A same function can only be held once by the same person

Responsibilities

AO CMF R&D Commission members have the following functions and duties:

- Actively contribute to the planning of research strategy and priorities based on relevant clinical problems along the AO Foundation's overall research goals with a particular focus on clinical studies.
- Coordinate together with other members R&D activities
- Supervise and monitor AO CMF R&D projects (milestones and budget)
- Comply to the AOF Shared values and the Code of Ethics

Preferences

- Highly committed clinical expert with the ability to work in a team of highly motivated experts.
- Visionary thinking person to define clinical research topics in AO CMF
- Recognized member on key national, regional or international CMF / Plastics / ENT / Oral & Maxillofacial Surgery associations
