Why AO In-Hospital

- Education delivered directly at your institution
- Flexible, customizable learning experiences
- Interactive case-based discussions
- Evidence-based AO content
- Learning assessments and certification
- Free of charge

Objectives

- Bring evidence-based CMF education directly to your institution
- Support consistent team-wide competence development
- Reduce travel and time away from clinical practice
- Align learning with local clinical needs and priorities

Target audience

- CMF departments seeking structured workplace learning
- Early-career and practicing oral and maxillofacial surgeons
