

Advance your surgical path with AO Milestones

Adaptive learning and hands-on skills training

Developed to align with the ACGME standards, AO Milestones ensures orthopedic residents achieve their educational milestones.

Key features of AO Milestones:

- **Adaptive Learning:** Customized modules that adapt to individual learning styles for a personalized educational experience.
- **Hands-On Skills Training:** Integrates Digitally Enhanced Hands-on Surgical Training (DEHST) and VR simulations for practical surgical skill development.
- **Comprehensive Assessment:** Utilizes real-world scenarios for both formative and summative assessments to ensure mastery of surgical knowledge.

Who benefits from AO Milestones?

- **Residency Program Directors:** Meets ACGME standards with adaptive learning technologies, skills assessment, and facilitates program accreditation.
- **Residents:** Tailored educational approaches enhance learning efficiency and provide realistic surgical simulations for safe practice.
- **Medical Faculty:** Advanced tools like OSapp and Surgery Reference for dynamic resident engagement and thorough progress monitoring.
